Paul Pacult's Spirit Journal December 2013:

Highest Recommendation "...A world-class, pot still brandy..."

Distiller's Notes: *"Continuing the Brandy program we started in 1983 with our 1,000 gallon Classic Alambic Pot still carries on our long-term commitment to distilling in California. I wanted our brandy to start an American artisan heritage of hand distilling based on my 11 generations of distillers in Yugoslavia before me. As generation XII, I was ready.*

Little did I know that we would distill so many spirits but I was determined that the would be how I envisioned it should be: full bodied, big and elegant. That my family distills with me and my son apprenticed by my side and learned to distill whiskey, rum, pastis, flavored vodkas and more while the brandy aged... well, that's how my people carry on. For me, distilling isn't a business, it's a way of life." **Miles Karakasevic, Grand Master Distiller**
